## GENERAL INFORMATION

### EXERCISE DOCUMENTATION

Any documents generated by players during exercise play must be submitted to the **Exercise Director** as part of the overall exercise documentation (e.g., WebEOC entries, e-mail messages, notes, activity logs).

### PARTICIPANT FEEDBACK FORMS

Please complete the participant feedback form distributed at the end of the exercise, and return it to the **Exercise Director**.

## EXERCISE SAFETY

### ACTUAL EMERGENCIES

Real-world emergencies and participant safety take priority over exercise conduct. In a real-world emergency, notify the **Exercise Director** and state, “**This is a real-world emergency.**” Cease all exercise play immediately, and comply with exercise control staff instructions.

### ACCIDENTS AND INJURIES

All players have a basic responsibility to act as safety officers. Immediately report safety concerns, unsafe acts or conditions, injuries, and accidents to the **Exercise Director**.

***The MISAC Table Top Exercise will be conducted in a no-fault learning environment and will evaluate existing plans, policies, and procedures as if players were responding to a real-world emergency. The exercise should not be viewed as a test or inspection of individual performance.***

## PURPOSE, SCOPE, AND SCENARIO

---

### PURPOSE

The purpose of the MISAC TTX Exercise is to evaluate player actions against current response plans and capabilities for an emergency or disaster response.

### SCOPE

The MISAC TTX Exercise will be conducted from 10:15am - 3:00pm at DNRC Headquarters conference room. Exercise play is limited to invited participants.

### SCENARIO

A fisherman pulled up a metal pail from Holland lake located SE of Condon Montana. The pail had several clusters of some kind of Mussels attached to it. It was reported to the local Game Warden.

---

## QUESTIONS

---

Direct questions regarding exercise play to the **Exercise Director** for this TTX.

---

## TARGET CAPABILITIES AND EXERCISE OBJECTIVES

---

### 1. Planning

MISAC Members will discuss; Preparation for a Rapid Response to an incident within two hours of notification by the duty officer.

### 2. Operational Coordination

MISAC Members will discuss; Early Detection / Verification / Notifications by the response team within the first operational period.

### 3. Situational Assessment

Site Specific Risk Assessment / Response Options are discussed by the response team members to meet agency expectations.

---

## ASSUMPTIONS AND ARTIFICIALITIES

---

Earnest effort has been made to create a plausible and realistic scenario to exercise and validate identified objectives.

Exercise communication and coordination is limited to participating exercise organizations (county/tribal emergency managers and IDEOC Logistics Section staff members).

Because the exercise is of limited duration and scope, certain details will need to be simulated. This simulation may require players to use their best judgment in response to requests for additional information.
