

# FIRE EQUIPMENT DECONTAMINATION TRAILER

**Michelle Cox, USFS**

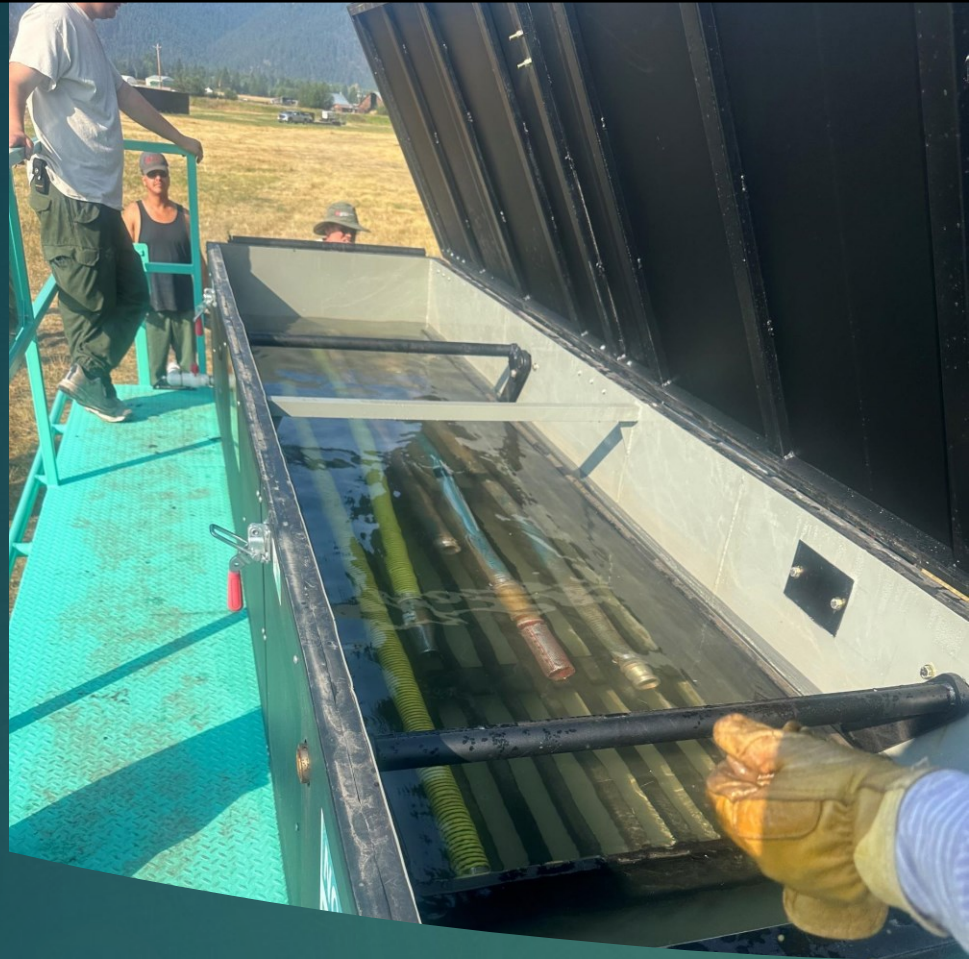

# Pathways for moving AIS

## Ground-based water handling

- Engines
- Water tenders
- Portable pumps/drafting gear
- Portable Tanks
- Footvalves

# Hot Water Dip Tank

HOSES AND FOOTVALVES

# Follow up after first deployment ...

- ▶ Development standard operating procedures for ordering the trailer and fuel. ONGOING
- ▶ Include a “starter” PPE kit with the trailer with list of items and vendors like Walmart for reordering. DONE
- ▶ Phase out propane for diesel units because it's easier to order diesel. FUTURE
- ▶ Add an interpretive panel to the trailer. ONGOING
- ▶ Plan additional training for operators and Spring Incident Management Team meeting. PLANNED
- ▶ How to ensure hot water fills inside of hose. ONGOING

# Forest Service Locations
